Christmas is a magical season. Except for this year.

MARIANNE WALLACE loves the holidays. From dressing the tree to her traditional Christmas dinner, it's all about creating memories for her family. But when her children begin to leave home—and their traditions—behind, she has one last chance to create a holiday they'll never forget.

Unfortunately, she's soon in over her head, and one impulsive decision leads to a string of events that will change the way her family—even her small Minnesota town—sees the Christmas season.

A REMINDER
OF THE TRUE
MEANING OF
CHRISTMAS.
